

ADRIEL WALINTUKAN

INFORMATION SYSTEMS STUDENT • FULL-STACK DEVELOPER

Email: adrielwalintukan27@gmail.com • WhatsApp: +62 851-7975-9298 • Location: North Minahasa, Indonesia

Portfolio: adrielwalintukan.my.id • LinkedIn: linkedin.com/in/adriel-walintukan-383032332 • GitHub: github.com/AdrielWalintukan

EDUCATION

Universitas Klabat (UNKLAB)

Bachelor in Information Systems

2023 – 2027 (Expected)

GPA: 3.96 / 4.00

Relevant Coursework:

Web & Mobile App Development, Database Systems, Cloud Computing, Software Engineering, Algorithms & Data Structures

TECHNICAL SKILLS

Frontend & Mobile:

React.js, React Native, Expo, TypeScript, JavaScript, Tailwind CSS 4, HTML5, CSS3

Backend & APIs:

Laravel 12 (PHP 8.4), FastAPI, Python, RESTful API Architecture, JSON, Node.js

Databases & Cloud:

PostgreSQL 17, SQLite, Supabase, Convex DB, Firebase

DevOps, AI & Tools:

Podman + Compose, Docker, Nginx, Vite, Google Gemini AI, Prompt Eng., Git, GitHub, Figma, Railway, IdCloudHost

ORGANIZATIONS

• LLDIKTI Wilayah XVI

Software Developer Intern (2025 – Present)

• UVICS (UNKLAB Virtue in Computer Science)

Core Tech & Web Development (2024 – 2025)

• BEM UNKLAB 2026

Ministry / Student Executive Board

• VOCS Choir

Voice of Computer Science • Tenor Vocalist

• Tou Minahasa

Regional Cultural Student Organization

CORE COMPETENCIES

- Problem Solving & Critical Thinking
- Software Architecture & Clean Code
- Cross-functional Agile Collaboration
- Rapid Prototyping & System Design
- Continuous Learning & Adaptability

LANGUAGES & INTERESTS

Languages: Indonesian (Native), English (Working Proficiency / Technical)

Interests: Generative AI, Cloud Infrastructure, Mobile Engineering, System Optimization

PROFESSIONAL SUMMARY

High-achieving Information Systems undergraduate at Universitas Klabat (GPA: 3.96/4.00) specializing in full-stack web and mobile application engineering, cloud microservices, and AI integration. Recipient of the national **Best Technical Excellence Award (PROXO CORIS 2026)**. Experienced in architecting scalable enterprise solutions, containerized government management systems (SIMPEG LLDIKTI), and automated workflows.

PROFESSIONAL EXPERIENCE

Software Developer Intern – LLDIKTI Wilayah XVI

Jun 2025 – Present

- Developed **SIMPEG (Sistem Informasi Manajemen Kepegawaian)**, an enterprise personnel management system using **Laravel 12 (PHP 8.4)**, **PostgreSQL 17**, and **Tailwind CSS 4**, containerized with **Podman Compose**.
- Implemented the **Laravel Action Pattern** with thin controllers and dedicated FormRequest validation for clean architecture, maintainable business logic, and secure API endpoints.
- Engineered automated batch employee data import pipelines (*import_batches*), audit logging, role-based access control (RBAC), and automated test suites with PHPUnit and Laravel Dusk.
- Collaborated on database migration scripts, environment variables setup, and deployment guides for regional server infrastructure.

Web Developer – UVICS (UNKLAB Virtue in Computer Science)

Aug 2024 – Aug 2025

- Contributed to the development and ongoing maintenance of organizational websites and departmental web platforms.
- Collaborated in cross-functional teams to build modern, user-friendly, and responsive interfaces across devices.
- Improved website performance, layout structure, and cross-browser responsiveness.
- Participated in sprint planning, code reviews, and Git version control workflows to maintain high software standards.

KEY PROJECTS

Carta AI – Smart Invitation & Event Platform (Mobile & Web)

React Native, FastAPI, Gemini AI

- Built an AI-driven event invitation and planning platform using Google Gemini AI, Supabase authentication, and FastAPI backend deployed on Railway & IdCloudHost.
- Implemented prompt engineering pipelines with Google Gemini AI for automated personalized design suggestions and structured data exports.

DailyBoost AI – Mobile Habit & Finance Companion

React Native, Convex DB, AI

- Developed an intelligent cross-platform habit tracker with Convex real-time reactive sync and Gemini AI personalized daily productivity recommendations.
- Engineered offline-first local state caching with real-time optimistic updates and responsive mobile layouts for iOS and Android.

Sistem Informasi Klinik – Healthcare Management System

React, FastAPI, SQLite

- Engineered an electronic medical records and appointment scheduling portal for clinic operations with role-based access control and patient logs.
- Designed intuitive patient management dashboards and role-based data views, improving operational intake efficiency.

HONORS & CERTIFICATIONS

AWARD: Best Technical Excellence Award • PROXO CORIS 2026 (National Mobile App Dev)
Recognized for exceptional software architecture, clean code standards, and innovative AI engineering.

- Intro to Cybersecurity – Cisco (2026)
- IBM Granite (GenAI) – IBM (2025)
- Web Developer – UVICS (2025)

- Front End Development – Simplilearn (2025)
- CISSP Security Testing – Simplilearn (2025)
- Cyber Security – Simplilearn (2025)
